

TMC PLUNGER STYLE VALVE REPAIRS

PRIORITY VALVE REPAIRS

In these days of spending freezes and cutbacks it gets harder and harder to keep a plant running. If you have specialty valves that are too costly to replace but vital to your process—send them to TMC to refurbish. We will repair any brand of Piston, Ram or disc style valves. Do you have valves failing to get tight shutoff,

leaking packing, failing actuators? Need to retrofit a manual valve to automate? Send to Tretter for evaluation and

we will inspect and give you a price and timeframe for the work. Provide as new warranty for complete overhauls. **Expedited service available to get you back up and running as fast as possible.**

CALL 610-737-5330 or 610-507-7783 for expedited repairs.

Typical repairs:

Repair damaged seats and gasket surfaces on valve bodies.

Replace worn and damaged parts.

Upgrade design for improved service.

Modify valve for new process conditions.
